## ABOUT US

Zigmatech Consult limited is an EduTech company specializing in designing and deploying software that improves students overall learning experience at different levels. We aim to use technology to aid learning and schooling processes. Simply put, we help candidates LEARN DIFFERENTLY.

### Our Product/Service Offerings Include

- ▶ ExamGuide
- ▶ Test Centre
- ▶ Virtual Science Lab
- ▶ Get Tutor
- ▶ Learning Hub and
- ▶ School Finder

## VISION

To be the global top EduTech company.

## MISSION

Engaging Innovative means in our products and services while keeping an eye on dependability.

We are committed to making a change in the educational sector by directly impacting the way people learn. We believe that technology can make learning fun, and we have proved this in our wide range of products.

## EXAMGUIDE

ExamGuide is a Computer-Based Testing (CBT) and Learning Application specially designed to enable students participating in various exams to prepare adequately. The approach used in this product is to teach with real exam past questions.

We believe that when a student studies for an exam with relevant past questions, it helps in the mastery of the exam style and structure, thus directly impacting the confidence with which the student approaches the exam.

In line with our goal of making students LEARN DIFFERENTLY, we intelligently designed the software to be not just a bank of past questions but a complete tool that if armed with will guarantee good performance.

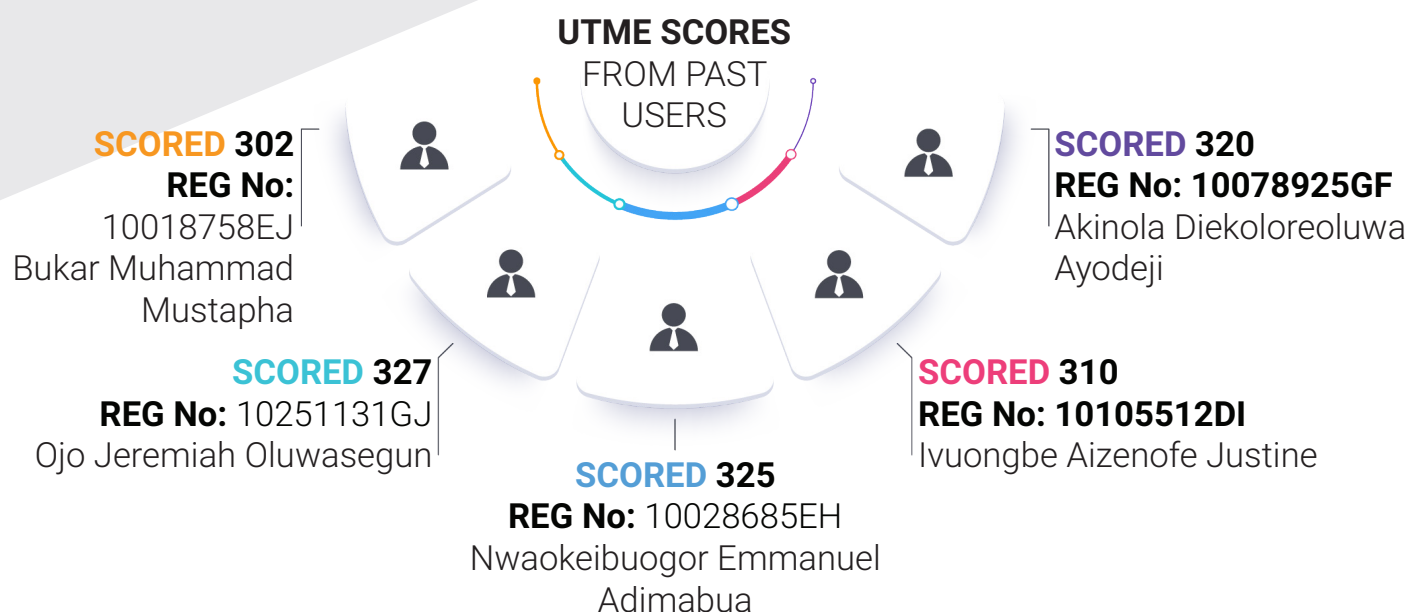

Below are some of the features of the application.

### **ROBUST AND COMPREHENSIVE**

Users can practice multiple subjects simultaneously in three modes (practice, study, and mock). You can filter questions by topic, set the number of questions to practice, and specify the exam duration. The question option boxes display images, tables, and special symbols.

### **EVERYTHING YOU NEED TO PASS THE EXAM IN ONE SITTING**

ExamGuide is a bank of past questions with detailed and simple explanations. Each question is matched to a topic, and the results displayed by the subject topic are accompanied by suggested areas that need improvement.

### RICH RESULT ANALYSIS

ExamGuide provides in-depth analysis and trends in performance. At the end of an exam, students can see their exam scores, the number of attempted questions, the speed and time spent answering questions, and the graphical analysis of their overall performance.

### ADDITIONAL LEARNING TOOLS

ExamGuide includes additional learning tools as a game, which makes studying more enjoyable. Users have unlimited access to Map, Math Rush, and Millionaire games, so there are no dull moments.

### AN EXPANSIVE LIBRARY OF VARIOUS EXAMS

Currently, our series covers UTME by JAMB, SSCE and GCE by WAEC and NECO, BECE/JSCE by NECO, NCEE by NECO, POST-UTME, COWBELLPEDIA, IJMB, LBAR EXAMS, and the ICAN EXAMS AND MANY MORE ADDITIONS TO FOLLOW SOON.

### ONE-OFF PAYMENT THAT LASTS FOR A DEVICE LIFETIME

You only need to activate the Application one time on a device and gain access to it for as long as you have that device. There are no hidden fees.

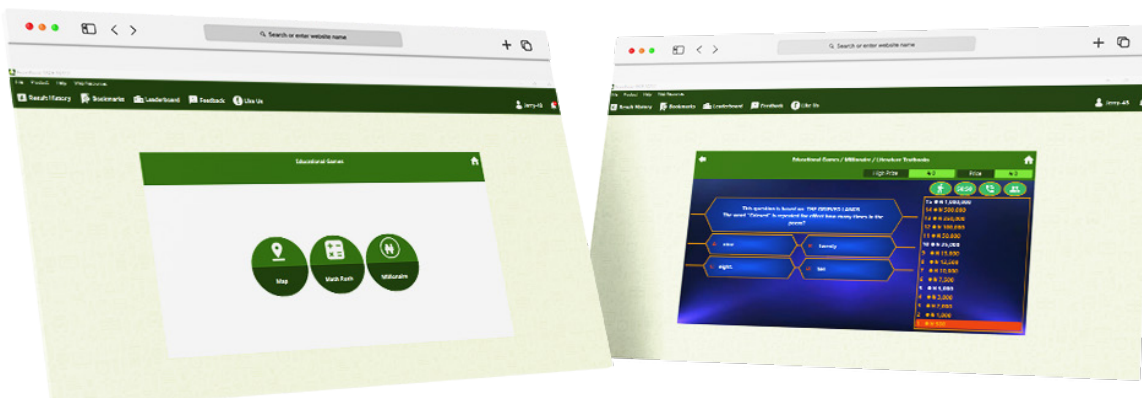

## CHALLENGE COMPETITION

ExamGuide users have access to participate in a series of mock exams we conduct before the main exam. We try to mimic the actual exam conditions in doing this, and students have the opportunity of competing against fellow candidates for the same exams.

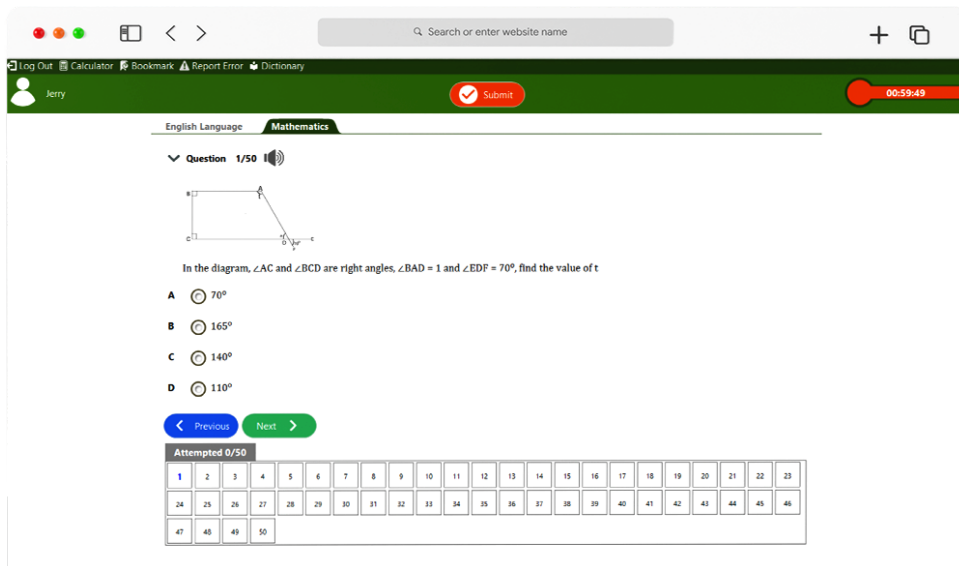

At the end of each round, you will see your score and rank amongst other candidates. We also give out cash prizes or airtime to the best candidates.

Over the years, we have seen a close relationship between the scores of our mock exams and actual exams. We can boldly say that if a candidate fully participates and keeps improving on performances in the series of mocks, there is a high chance that they will surpass their best mock exam performance in the actual examination.

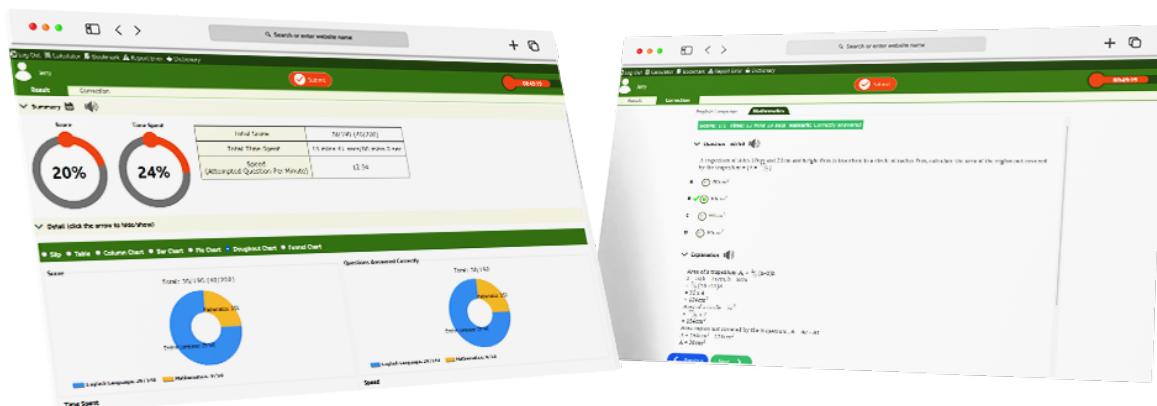

SCORE IN JAMB	SCORE UTME CHALLENGE
Ojo Jeremiah Oluwasegun 299	Ojo Jeremiah Oluwasegun 327
Nwaokeibuogor Emmanuel Adimabua 299	Nwaokeibuogor Emmanuel Adimabua 325
Akinola Diekoloreoluwa Ayodeji 319	Akinola Diekoloreoluwa Ayodeji 320

Bukar Muhammad Mustapha 309	Bukar Muhammad Mustapha 309

## 3 INTERESTING EDUCATIONAL GAMES

**CLEAN AND COMPLETE PRACTICE INTERFACE**

**SOLUTIONS AND RESULT-ANALYSIS**

## TESTCENTRE

TestCentre is a Computer Based testing platform designed to enable schools and IT organizations to administer Computer-based exams to their students/candidates. It is a very robust application capable of hosting up to 500 candidates at a go. It runs on all kinds of servers hosted locally or online.

It is easy to set up and very flexible in operation. You can customize it to have your school outlook, create your questions and administer them from the server. Our mode of presenting results is top-notch. The software can pass for an exam management system as it can pile up results if a student continues with the same identity.

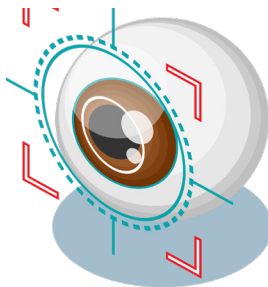

The platform is suitable for recruitment, promotion, entrance, and school terminal examinations. It is a one-size-fits-all solution.

### HIGHLIGHTS OF THE PLATFORM

It can take full student biometrics and

The platform uses the webcam of the live test monitoring. At any point in the and see what is going on with the per-

face capturing. Which is an essential feature for people that want to administer their exams remotely through a link.

device for PC and the phone camera for exam, you can call up a candidate's screen son.

The result presentation is second to none. In the case of a student's result dispute, all input from the candidate is on the server. The platform keeps a tab of all such details. Results show details such as **average time per question**. It also shows the result in topics if you selected such from the content tool.

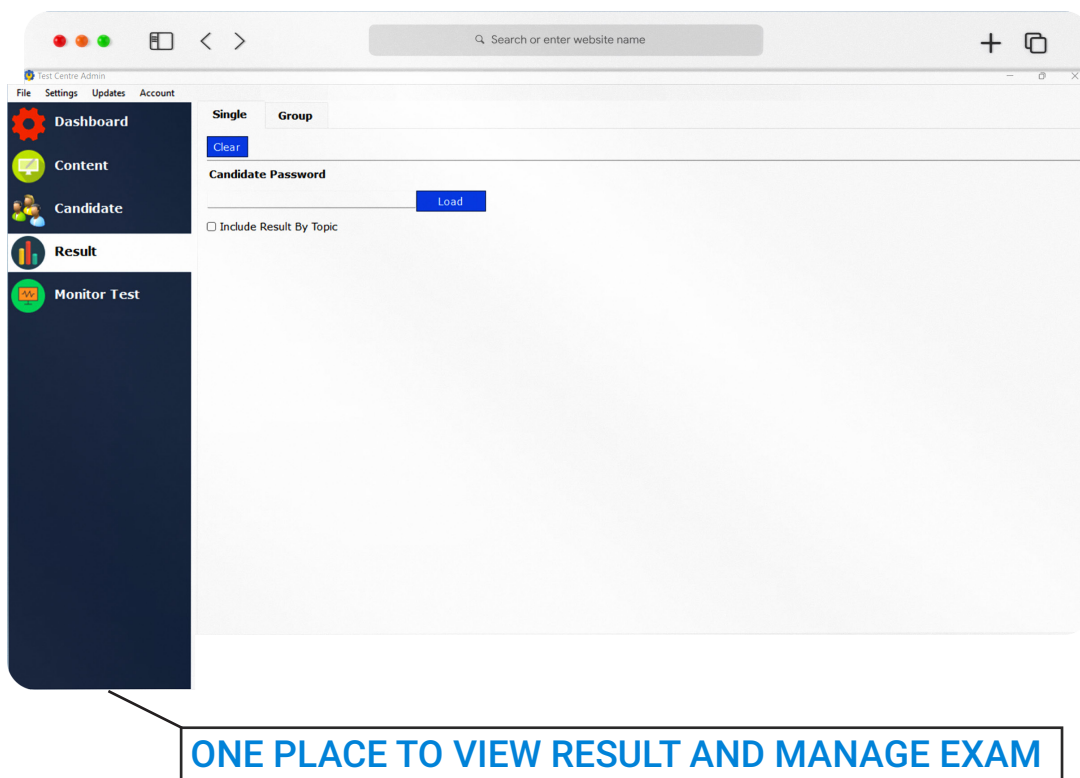

The flexibility allows you to decide so much to curb exam malpractice. For example, you can shuffle questions such that they will appear in different numbers for candidates, go a step further and mix options so that the correct answer appears in opposed positions for candidates.

Test Centre features a powerful CBT engine that allows images, subscripts, superscripts, tables, special symbols, keyboard keys for easy navigation, an on-screen calculator, and more.

Invites to exams and results of exams can be sent out to candidates from the server. Perhaps there is a power outage during exams; the candidate can continue exactly where they stopped when the power is back on. The uniqueness of TestCentre can not be exhausted in this copy; bear in mind that you are more likely to see a feature you do not need than to look for one you need and not find it. The server controls all features.

## VIRTUAL SCIENCE LAB

Aware of the challenges students face in accessing well-equipped science laboratories to carry out practicals. We came up with the idea of designing software that allow students to carry out practicals virtually and have the same experience as in a physical laboratory.

Science Lab aims at helping students simulate experiments. The virtual labs provide an immersive experience, with enriched content and features that enable students to gain more understanding and knowledge.

You can start and finish the experiments without paper because online graphs are available on the platform. In other words, our virtual science lab can conduct experiments, take readings, and plot graphs virtually.

### Some of its Outstanding Features Include:

- **A Wide Range of Coverage:** It covers most secondary school and entry-level university practicals.

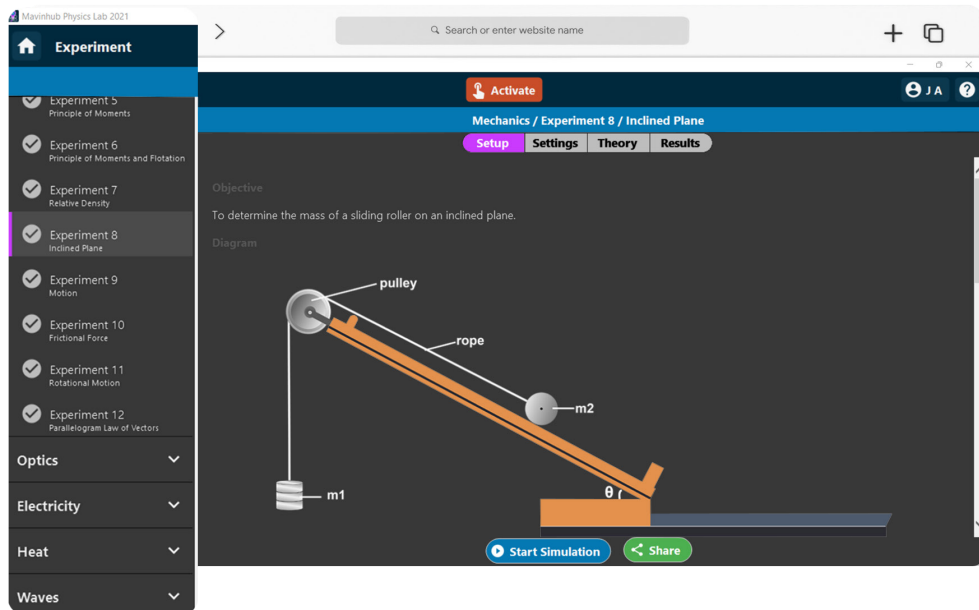

- **Accessibility And Affordability:** Science Lab anytime and anywhere with your laptop. Enjoy the convenience of learning at your own pace at an affordable rate. 100% offline except for study groups.

- **Study Group:** Create a group, give assignments, and interact with your students from the convenience of your home.

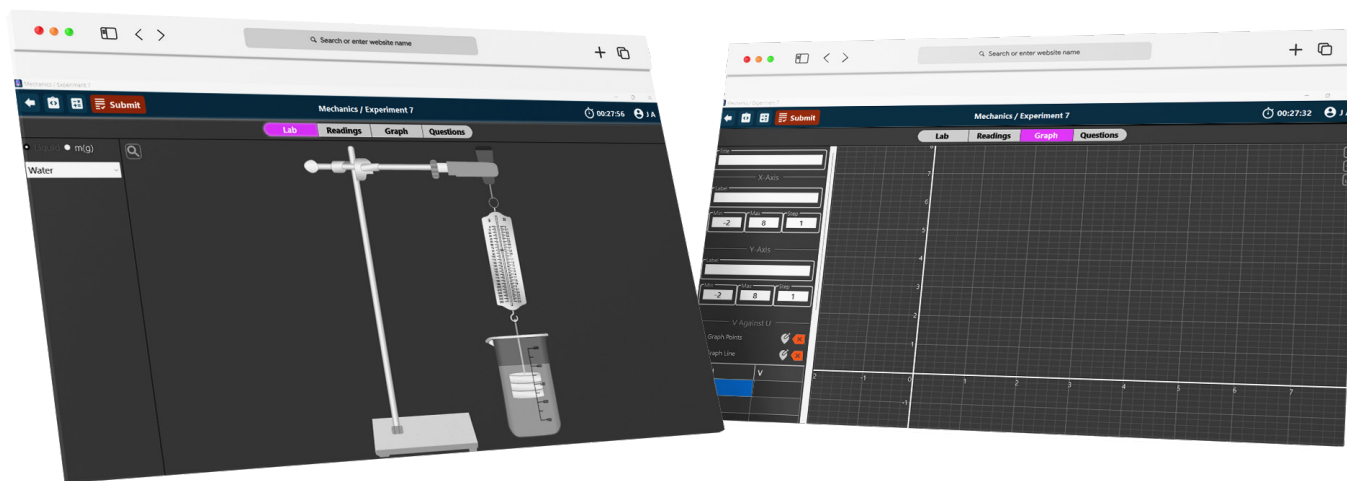

- **Cutting-edge grading system:** The virtual lab instantly grades you at different experiment levels.

There are no fixed Settings: Create your unique question for the experiment, and change the default settings and variables.

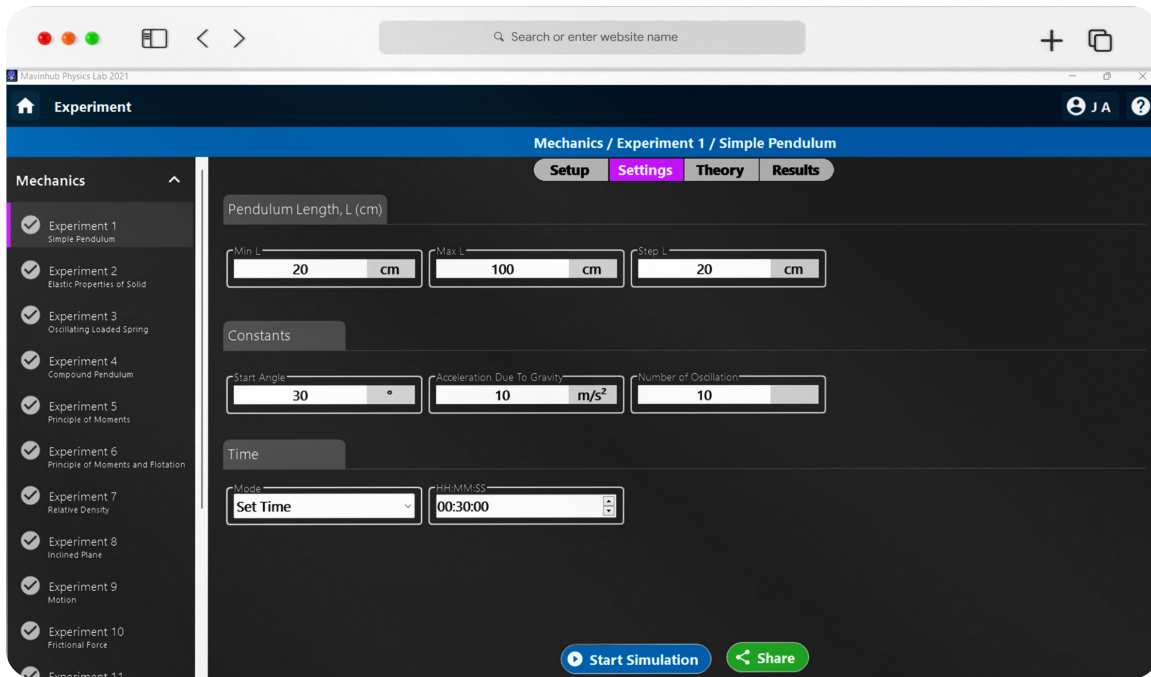

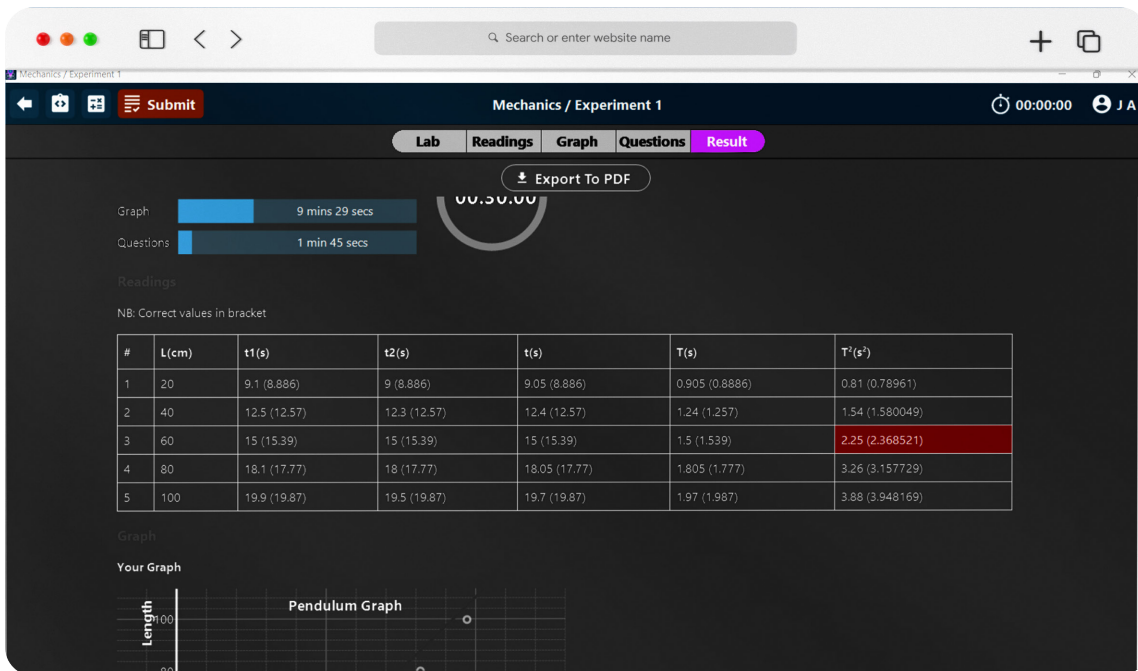

A WIDE RANGE OF PRACTICALS COVERED

ALL-IN-ONE: SIMULATE, TAKE READINGS, PLOT GRAPH AND ANSWER THEORY QUESTIONS

Experiment Settings Can Be Changed

Instant Performance Analysis and Grading

## LEARNING HUB

Learning hub is an online platform that offers anyone, anywhere, access to free but quality expository tutorials.

We use the very best subject matter experts to teach any course. The platform is a run-to for any student who wishes to continue learning after school. The subjects are well planned, and syllabus-based contents are skillfully taught and presented in a state of art videos.

The platform is very interactive, and you can ask questions in the form of a comment at the end of each session. This service is completely free.

To access this service, visit  
[www.examguide.com/learninghub](http://www.examguide.com/learninghub)

## GET TUTOR

**G**et Tutor is an online platform that connects learners with skilled tutors at every level of education. This tool is very serviceable for parents/guardians seeking professional Home Tutors for their wards.

On this platform, you can find the following:  
Name of Tutor, Address of the Tutor, Subject of expertise, and fee.

It helps you do some form of filtering before inviting the teacher for a meet-up.

To become a Tutor on The Get Tutor platform, create a professional profile for Free and provide the details as may be required from the profiling form.

To access this service visit **[www.examguide.com/gettutor](http://www.examguide.com/gettutor)**

## SCHOOL FINDER

School Finder is an unbiased on-line platform that profiles schools for easy **visibility** and allows parents to conveniently find a school based on their **budget, location, curriculum, facilities, and other factors**.

Are you proud of the facility in your school?

Do you trust the abilities of your teachers to offer the best?

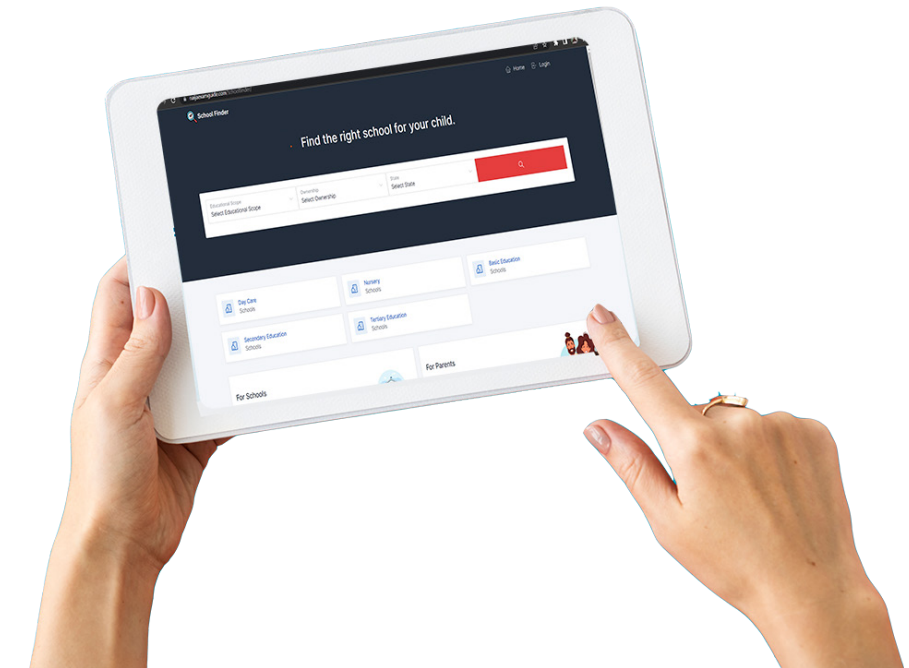

Can you boast of the academic performance of your school over time?

Then, the school finder is a place to let it out to the world.

We offer you a platform to sell your school to the public at no cost.

You are only required to create a profile for your school on School Finder for easy visibility by parents and guardians.

To access this service, visit [www.examguide.com/schoolfinder](http://www.examguide.com/schoolfinder)
